AHMED ASHRAF ELNAHAS
Frontend Developer

PROFIL

Front-end Developer with 2 year of experience building responsive and interactive web interfaces using modern JavaScript frameworks, especially React.js. Passionate about UI/UX, performance optimization, and writing clean, maintainable code. Always eager to learn and grow in collaborative, agile environments.

WORKING EXPERIENCE

Personal Portfolio Website
Self-initiated Project | 2024

- Designed and developed a fully responsive portfolio website using React.js and Tailwind CSS.
- Implemented React Router for smooth multi-page navigation and modular code structure.
- Showcased personal information, technical skills, and selected projects in a clean UI.
- Deployed the site via GitHub Pages and optimized performance for fast load times.

E-commerce Product Page (UI Prototype)
Self-initiated Project | 2024

- Created an interactive product detail page using HTML, CSS, and vanilla JavaScript.
- Integrated product image slider, quantity selector, and cart simulation logic.
- Focused on UI responsiveness, clean design, and cross-browser compatibility.
- Practiced DOM manipulation and modular structure in a real-world interface.

Blog UI Application
Self-initiated Project | 2023

- Built a static blog interface using React.js and CSS Modules to practice component-based design.
- Rendered blog posts dynamically from local JSON data.
- Structured reusable components for layout, header, sidebar, and post cards.
- Improved understanding of state management, props, and UI composition.
